TWP750SPP-BEU

Twinkly Light Tree – 750 RGB+W Flag-pole Christmas Tree, 4 m , 16 Million Colors + Warm White

Twinkly Light Tree – App-controlled Flag-pole Christmas Tree with 750 RGB+W (16 million colors + pure Warm White) LEDs. 4 meters. Black wire. Outdoor smart Christmas lighting decoration.

Light up your Christmas with Twinkly Light Tree, a unique and innovative app-controlled flagpole tree for your connected home. With a height of 4 meters, consisting of 750 RGB + Warm white 5 mm clear and diffused flat lens LED, specifically designed with a flat head to reach impressive brightness levels and perfect tone of color, Twinkly Light Tree goes beyond the traditional decorative Christmas lighting. Light Tree is easy to assemble, it doesn't require any additional external support or tools, as it comes with everything you need – bringing a magical feel to any outdoor environment. Like all Twinkly products, Light Tree can be mapped and every single LED can be controlled individually, allowing you to create and reproduce unique effects, gradients, and color animations – Light Tree becomes your screen. Easily configurable via Wi-Fi and Bluetooth®, Twinkly Light Tree is controlled using the free Twinkly App, available for iOS and Android. Twinkly's App enables you to create bespoke light design installations thanks to a wide range of pre-made effects and animations, as well as the ability to create your own effects from scratch using the FX Wizard creation tool. Twinkly Light Tree can be grouped together with other Twinkly RGB+W devices to create larger, synchronized light installations. Twinkly Light Tree can be controlled seamlessly with vocal assistants such as Hey Google and Amazon Alexa, as well as with Apple HomeKit, Homey, and Razer Chroma™ RGB via Twinkly Chroma Connector and OMEN Light Studio on OMEN Gaming Hub to enhance your gaming experience with stunning light effects that react to your gameplay. Suitable for indoor and outdoor use, rated IP44.

Features

APP-CONTROLLED LIGHTS. Use the free Twinkly app (for iOS and Android) to fully manage Twinkly Light Tree. Choose, create and design effects, apply a timer, and switch your lights on and off.

EASY SETUP. Using Bluetooth and Wi-Fi you can quickly set up your Twinkly Light Tree and start playing with it in seconds.

FOLLOWS THE MUSIC BEAT. Using the optional Twinkly Music USB microphone, Twinkly Light Tree can reproduce effects in sync with any music played in your environment.

STUNNING SCENERY INSTALLATIONS. Unleash your creativity grouping multiple Twinkly devices together using the Twinkly app, with no physical connection required.

PREMIUM CHRISTMAS LIGHTING DECORATION. Made with premium components, a steady aluminium pole, and a robust but refined lighted net, Light Tree bring the Christmas spirit to any outdoor environment.

OTHER FEATURES. Smart controller, power adapter with plug type F (Europe), black aluminium pole and additional setup tools included. Fully-featured control panel with dimmer, timer and brightness. Works with Hey Google and Amazon Alexa. Works with Apple HomeKit. Compatible with Homey. Integrates with Razer Chroma™ RGB and OMEN Light Studio.

Long description

Light up your Christmas with Twinkly Light Tree, a unique and innovative app-controlled flagpole tree for your connected home. With a height of 4 meters, consisting of 750 RGB + Warm white 5 mm clear and diffused flat lens LED, specifically designed with a flat head to reach impressive brightness levels and perfect tone of color, Twinkly Light Tree goes beyond the traditional decorative Christmas lighting.

Like all Twinkly products, every single LED of Light Tree can be controlled individually, allowing you to create and reproduce unique effects, gradients, and color animations.
Twinkly's patented mapping tool uses your smartphone camera to locate the precise position of each LED in the space, however they are laid out. This powerful and innovative process lets you control your Light Tree like a screen: you can play professional, pixel-perfect effects and animations right on your decoration.

Twinkly's App enables you to create bespoke light design installations thanks to a wide range of pre-made effects and animations, as well as the ability to create your own effects from scratch using the FX Wizard creation tool. All effects are completely customizable: brightness, speed, intensity, and color can all be modified with a single tap. A color picker helps you choose the perfect shade from more than 16 million options. An ON/OFF timer and general dimmer complete your control panel, providing you with unlimited possibilities to create the perfect lighting decoration. Light Tree can be grouped together with other Twinkly RGB+W devices to create larger, synchronized light installations.

Twinkly Light Tree can be used in combination with Twinkly Music, a small USB device (sold separately) capable of identifying and interpreting any source of music reproduced in your environment, enabling your lights to follow the beat for a WOW-effect audiovisual experience.

Twinkly Light Tree can be controlled seamlessly with vocal assistants such as Hey Google and Amazon Alexa, as well as with Apple HomeKit, Homey, and Razer Chroma™ RGB via Twinkly Chroma Connector and OMEN Light Studio on OMEN Gaming Hub to enhance your gaming experience with stunning light effects that react to your gameplay.

Getting started with your Light Tree is super easy: a quick and intuitive setup process helps you configure your device in a matter of seconds via Bluetooth® and Wi-Fi.

Twinkly Light Tree is IP44 certified, suitable for indoor and outdoor use.

General

Product SKU	TWP750SPP-BEU
EAN	8056326676889
Year's model	2021

Light string

LED type	Addressable LED
LED color	16M+ colors + Warm white
Number of lamps	750
Lamp type	Clear + Diffused flat lens
Lamp diameter	5 mm | 0.2 in
Height	4 m | 13.2 ft
Diameter	2 m | 6.6 ft
